

Bottom Shelf Pipe Rack

Parts

- You should receive the following parts.
- You should also receive hardware (not pictured)

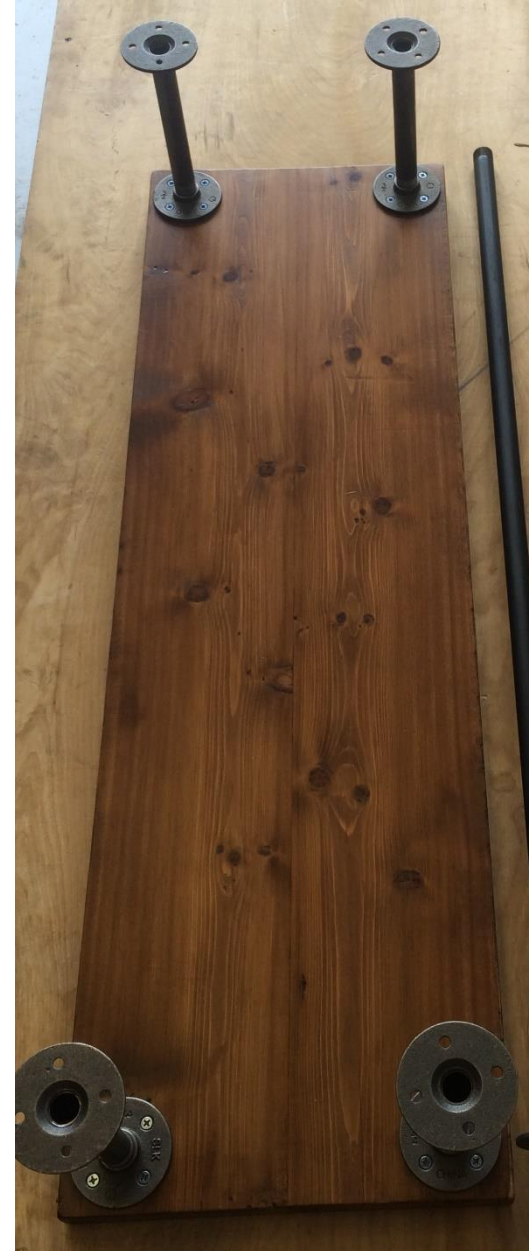

Step 1

- Attach all 6 flanges to pipes as pictured.
- Hand tight is tight enough.

Step 2

- Attach all 4 pipes to the bottom of the wood shelf flanges.

Step 3

- Assemble clothing rack by screwing together the two vertical bars into the top hang bar (hang bar has two elbow fittings on each end).

Step 3

- Flip wood shelf over so Flanges lay on ground.
- Place clothing rack on wood shelf.
- Align the flange fitting holes with the pre drilled holes on the shelf. You may need to tighten or loosen vertical bars or flange fittings so the holes align.
- Attach clothing rack with provided 1 ½" screws using Philips head screw driver or drill.
- If needed, level the rack by loosening or tightening feet.
