

WILLIAM ROBERTS VINTAGE

Wall Clothing / Garment Rack w/Shelving

Step 1 - Top

Find 2 of Pipe (A) & (B) and 4 of pipe(C). These pipes will make the top of both sides of your wall rack. Slide 2 pipe (C)'s thru oversized Tee's on both ends of pipe (B) and then screw into pipe (A) tighten with pipe wrench. Repeat this to make the second side. You should have 2 figures that look like a square.

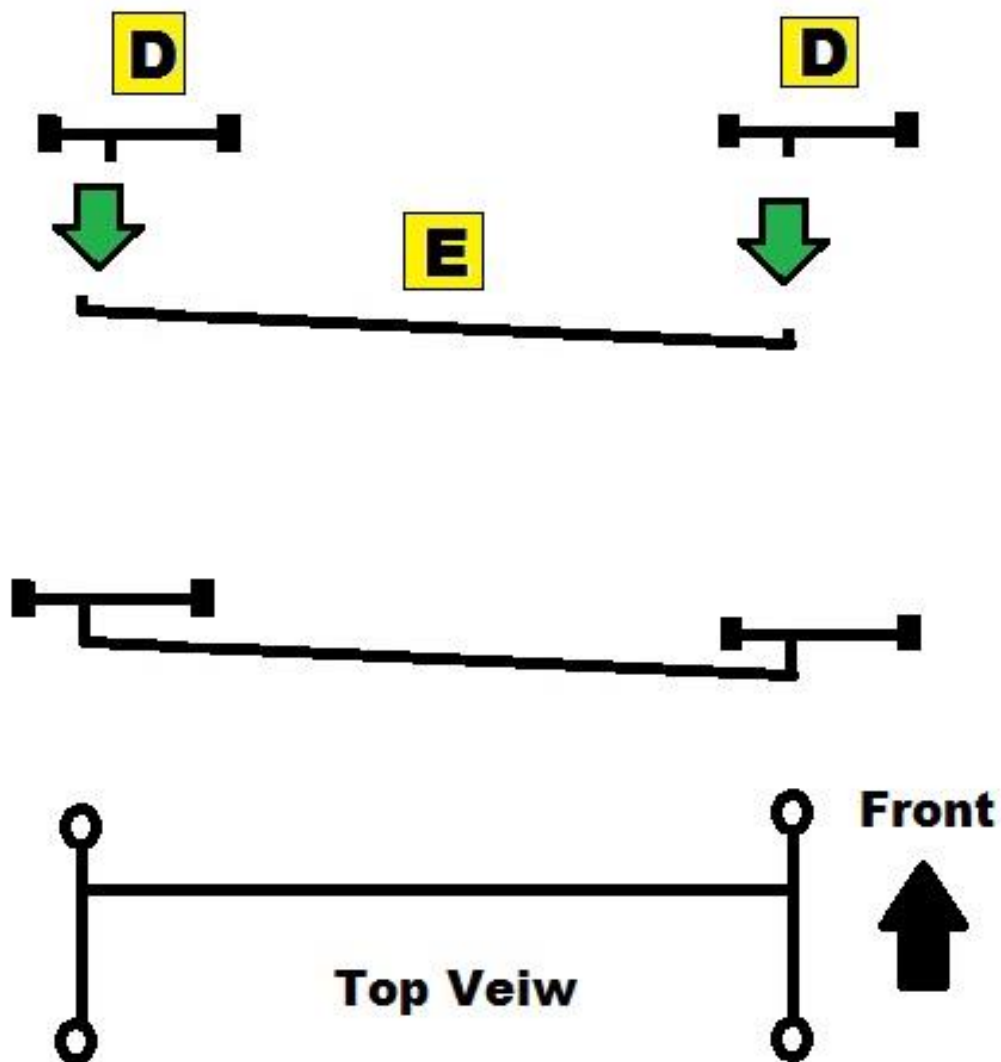

Step 1

Step 2 – Hanger Bar

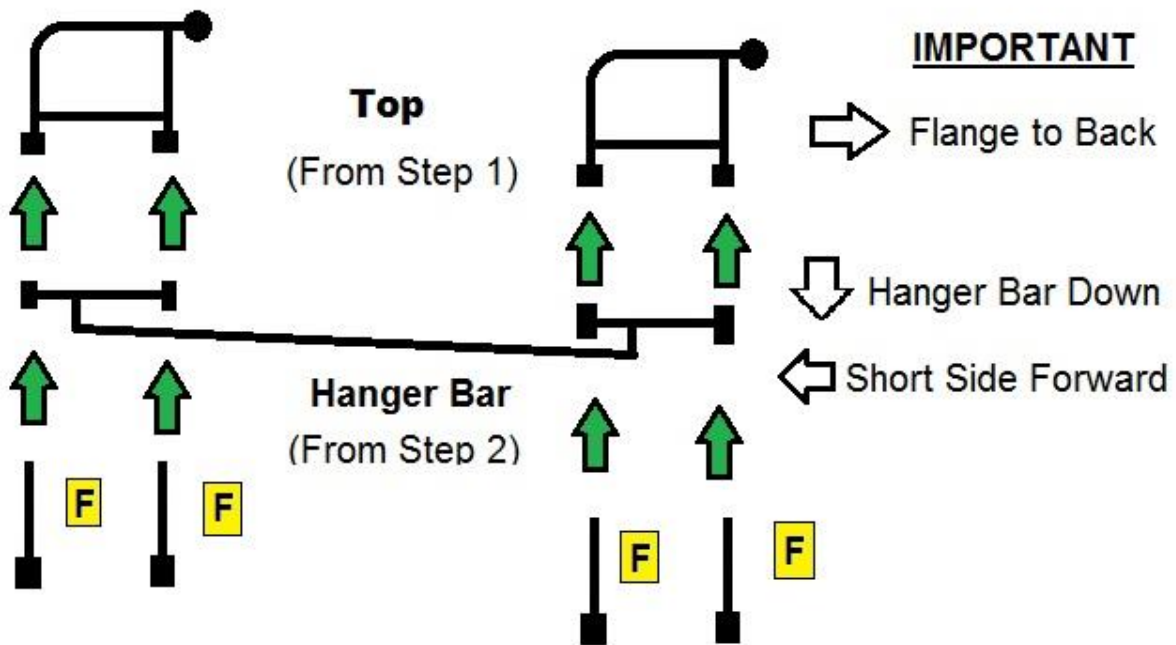

Find 2 (D) Pipes and 1 (E) Pipe. Screw one pipe (D) to one side of pipe (E) and the other pipe (D) to the other side. Tighten and make both pipes (D) 90 degrees from pipe (E) making a figure like the capital letter I.

Step 2

Step 3 – Attach Hanger Bar

Find 4 of pipe (F) then Lay Hanger Bar on floor take the Top (Pipes A,B &C) you made in Step 1 to each side of the Hanger Bar (Pipes D&E) **Important Note: The hanger bar is towards the front and downward. The flanges on the Top are towards the back.** Now slide pipe (F) thru oversized Tee's on each end of the hanger bar and screw into pipe (C) 4 times. Your rack now should look like a wall rack without legs.

Step 4 – Attach Legs

Find 4 of Pipe (G) and screw into pipe (F) 4 times. The rack should now be complete. Secure rack to wall and floor. **Important:** Use correct fasteners (Not Supplied) for wall or floor rack is being attached to.

You can now add your wood shelves. (Not supplied)

Step 4
